

Anastasia

Structural Options

Anastasia
Total living area:
 2,561 square feet
 4 bedrooms
 3 baths
 2-car garage

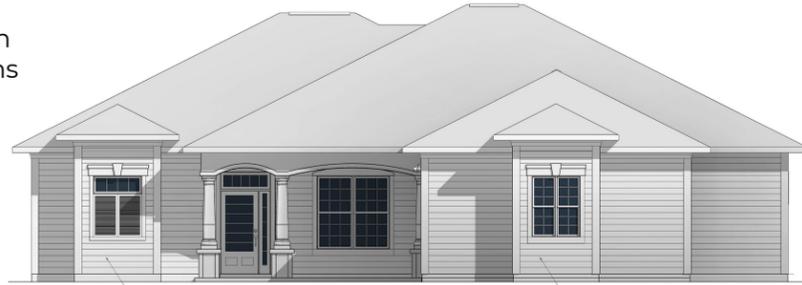

One of our most popular models, The Anastasia has 4 bedrooms, 3 baths, and 2,561 square feet of luxurious living space. From the moment you enter, this home is welcoming and comfortable. The customizable kitchen has tons of counter space, a walk-in pantry, and a large island that includes beautiful wood cabinets on the bar side. The adjacent breakfast room and great room are lined with windows, creating a living space that is light-filled and airy. An elegant dining room with arched entry completes the open floor plan. The expansive master suite has separate his and her walk-in closets, and a spa-like bath with dual vanities, a huge soaker tub, and a walk-in shower. There is plenty of outdoor living space, too, thanks to the covered front and rear porches. The master bedroom and breakfast room have the option to include bay windows. There are 10-foot ceilings throughout the main living spaces and bedrooms, and your choice of tile or hardwood flooring in all of the common areas. The 2-car garage has a handy bump-out area that is just the spot for a workbench, and the pull-down ladder provides easy access to the floored storage area in the oversized attic. There are also options for step ceilings, and exterior stone accents.

All GW Robinson Homes models are built to the highest standard of quality and efficiency, often times exceeding even the most recent construction codes and requirements. All base home prices include the Southern Traditions as the standard elevation. All included features correspond to the applicable community's feature sheet.
