

Maclay II

Structural Options

Maclay II
Total living area:
 2,209 square feet
 3 bedrooms
 2.5 baths
 2-car garage

GW Robinson Homes' Maclay II model is everything you've been looking for! This 3 bedroom, 2.5 bath home features 2,209 square feet of thoughtfully designed living space. The easily customizable kitchen has a built-in pantry and a large island, and is open to the spacious great room and elegant dining room. From the great room, you access the large rear covered porch via gorgeous French doors. The private master suite includes an outstanding bathroom with a huge walk-in shower, dual vanities and soaking tub, along with a large reach-in closet and a walk-in closet. Two additional bedrooms are located just off the great room. The first floor study and second floor loft offer additional living spaces. There are soaring 10-foot ceilings throughout the entire home, and a valet next to the laundry area in the back hall. And it's your choice of tile or hardwood flooring in all of the common areas. The 2-car garage has a handy pull-down ladder for access to the floored storage area in the oversized attic. This model is a member of our Generation Series, which means the HVAC ducts are lowered from the attic into the conditioned space in soffits to increase performance and efficiency which equates to increased utility bill savings for you!
